

SECRET

Journal - Office of Legislative Counsel
Monday - 26 April 1971

Page 5

14. (Secret - LLM) Returned the call of Ralph Burr, Legislative Reference Service, OMB, who said that our comments on the draft bill and proposed Speaker letter on the Radios were no longer due on an ASAP basis since the Senate hearings had been postponed until later in May. I thanked him and told him we had not yet received the legislative package which he said he had sent out by special courier sometime last week. He told me that he understood that we had a hand in drafting the proposed legislation.

15. (Internal Use Only - LLM) Rosalind Hoffman, in the office of Representative Robert Drinan (D., Mass.), called to ask what the merits of the polygraph were in connection with legislation that is being drafted to prohibit the use of the polygraph. I told her I believed this subject had been studied by congressional committees previously and that I would see if I could come up with a citation to such committee hearings or reports. She said this would be "fantastic."

16. (Internal Use Only - LLM) In the absence of Representative Frank Evans (D., Colo.) from his office, I met with a number of assistants who were unable to come up with a resume on the "childhood friend" of the Congressman who has expressed interest in Agency employment. Later I spoke with Eulanda, in Mr. Evans' office, who had custody of the resume and is sending it over to us for our review.

17. (Unclassified - LLM) Robert Hull, Department of State, called to discuss proposed Foreign Service Retirement Act amendments. As soon as he gets them on paper he will send them over to us for our information and review.

25X1A 18. (Secret - JMM) Met with Representative Otis Pike (D., N. Y.) in response to a question he raised at the 25 March 1971 briefing of the House Armed Services Committee regarding Soviet expenditures for defense and space programs for 1971, and provided him with information supplied by [redacted] of OSR. Mr. Pike seemed completely satisfied with this information. I also filled him in on recent developments regarding Soviet strategic offensive and defensive weapons, ChiCom nuclear installations, and Soviet weapons supplied to the UAR.
